

# ONE JOB. ENDLESS POSSIBILITIES.

It's what you make of it.

Welcome to the EOS team! We, round about 1,250 employees worldwide who are passionate about technology, invite you to share in our enthusiasm in revolutionizing today's production through the technology of the future, the industrial 3D printer. Stir up international markets as a part of an independent family business. Discover the unlimited opportunities that our working environment offers in all things concerning additive manufacturing.

## Intern for Transformation and Strategy (m/w/d)

Standort: EOS GmbH - Electro Optical Systems Headquarters

### HERE'S WHAT YOU'LL BE DOING:

- As part of your job you are an active member of our Transformation Team and help us in shaping our image of the future. An interdisciplinary, diverse, agile and fun team to work with.
- You support us in conducting online research and can independently and professionally prepare the findings of your research (visualize data etc.) Therefore you are familiar with the common MS Office applications (Word, Excel, PowerPoint) as well as digital collaboration tools and you are able to create slides shortly.
- During different projects you have fun with data-based analysis and their evaluation.
- You like to take issues forward, we give you the opportunity to question the standard and explain why we should do things differently
- As an intern you also support us in identifying new topics of strategic relevance and setting up related implementation projects.
- Last but not least, you independently prepare and conduct workshops and present results.

### HERE'S WHAT WE ARE LOOKING FOR:

You are a structured and analytically thinking person, with a quick grasp of a variety of tasks, you like to work in teams and you are very communicative? Besides, you act proactively, possess a high level of initiative and live a hands-on mentality? Great! Furthermore, you bring along the following:

- Business knowledge or business background with affinity to data analysis
- Very good knowledge of Excel and PowerPoint
- Very high level of written and spoken English and German
- Open for facilitating workshops
- Ready to dive into an agile way of working
- Passionate design thinker

You bring all the topics with you, but are not in Munich or the surrounding area? No problem, you can also work remote.

### HERE'S WHAT WE OFFER YOU AT EOS:

- With us you will already take on responsible tasks as a student. Bring in your ideas and work in a team with our experts to shape the future of industrial 3D printing.
- Enthusiasm for our technology, the flair of an international family business, a living culture of values and short decision-making paths - these are a few things that will shape your everyday life with us.
- At EOS you can expect attractive remuneration and a travel allowance for your internship.
- Joint student events ensure that you can also make contacts across departments.
- Our company restaurant offers varied, healthy and tasty dishes and a pleasant atmosphere.
- Our headquarter is located in the Krailling Innovations Meile KIM in Krailling near Munich. From Munich city centre you can easily reach us by taking the S6 to Planegg. From there the bus 906 will take you to the entrance door.

Shape your fascination for technology with a pioneer of 3D printing - nowhere else will you have the chance to frame the future so directly than at EOS! Take the next step forward in your career and apply now.
