AI-Enthusiast (Hacker)
wanted for Tech-Startup

YOU
.. are **passionate about AI** and machine learning?
.. want to **contribute** to the field of **machine vision**?
.. think that **synthetic datasets are key** and manuel labeling is outdated?

WE
.. are an early stage startup looking for **you as Co-Founder!**
.. do **synthetic dataset generation** and training of CNNs **for machine vision**.
.. **focus on** factory automation tasks and **real world problems**.
   (such as 6D Object Pose Estimation)
.. can be found here: www.GoldenDataFactory.tech

If you want to challenge yourself and the status quo of
industrial machine vision, **you're our Co-Founder!**
Make sure to reach out to us, we can talk about anything.
