## Product and Software Engineering

### About Stella Medical

Stella Medical is a young medical device startup based in Munich. We envision a new way of surgical navigation by offering a user-friendly, small-size navigation system for spinal surgeries. You think this is a great cause? So do we!

Now in the process of growing our passionate team, we are looking for a motivated, entrepreneurial minded team member with expertise in **Medical Technology** and / or **Computer Vision**. We are able to offer a full-time position starting April 2021. You will be a fundamental part of the team as one of three EXIST Gründerstipendium scholars.

### Benefits

- Take care of interesting engineering work and accompany the development process
- Work in an inspirational, dynamic and entrepreneurial environment
- Benefit from existing collaborations with university, clinical and industry partners
- Have the opportunity to work with an interdisciplinary and international team

### You are offering these qualifications and experiences

- Passionate about making a difference on the medical navigation landscape
- Background in Medical Engineering or technical subject (e.g. Computer Science, Mechanical Engineering, Electrical Engineering)
- Preferably practical experience in image processing and the medical software industry
- Proactive, self-organized and high commitment
- Comfortable speaking both German and English on a highly proficient level

**Interested? Join us on our mission!**
