

## Working Student: Software Development Web (m/f/d)

The growing internet trade of recent years has led to more and more counterfeit products being offered and manufacturers losing contact with their customers. With IMERO, manufacturers can give their products a unique identity that allows them to communicate directly with their customers and provide them a bundle of digital assets that add a digital dimension to the product.

### Your Tasks

We created a dashboard for our customers to manage their products and starting campaigns. Your task is to improve and extend our existing dashboard.

- Develop fancy statistics for our customers
- Report generation based on collected data
- Implement a tracking view
- Develop AI based suggestion services

You will work directly with the founders, be involved in all important decision-making processes and be able to be present during the important first steps.

### Your Profile

- You study computer science or similar
- Good knowledge of current web technologies (Angular, Node.js, MongoDB, ...)
- Interested in learning new technologies
- You work proactively and independently
- Good knowledge of German or English

### Why IMERO

IMERO is still at the beginning of its journey, but has enormous growth potential. You now have the opportunity to jump on board! Develop your own ideas and concepts and put them into practice. Get involved and see how a whole new company takes shape through your work.

Have become curious? Send us your CV and your previous projects, experiences etc. If you have any questions, do not hesitate to contact us by mail or phone.

We also want to grow strongly, so that after your graduation you might be interested in joining us.
