

Venture Building / Business Development Intern (m/f/d)

📍 Munich, Germany 🏢 Internship 📁 Business Development

Salary: 1.700 € to 1.900 € / month

// Your Opportunity

Join us to disrupt the massive and ever growing IT services industry! Help build an early-stage technology venture and discover the trends that are forming the digital future. At Casana, you will have a unique opportunity to impact the growth of a venture-backed startup with your ideas and drive!

We are looking for a hungry Summer Venture Building / Business Development intern (m/f/d) who is genuinely curious, has a great work ethic and seeks to take on ownership from day one. You will learn tremendously fast in a dynamic environment, giving you a future career advantage.

You will have the chance to work closely with our management team, former BCG and Bain consultants, who will provide frequent mentoring support and feedback to build up your set of skills.

Tasks

- Own and execute individual projects that foster market and customer understanding
- Support roll-out of new tools and processes across the organization
- Evaluate partnership potentials with a variety of stakeholders
- Gain a deep understanding of industry trends, use cases and customer needs to support strategic decisions
- Contribute to Casana's open and empowering culture

Requirements

- Completed B.Sc. at a well-renowned university in business, engineering, economics, or similar field
- Gained internship experience in fast-paced, demanding environments, such as management consulting, fast growth start-ups, investment banking or big tech.
- Exceptional structuring and analytical skills with an ability to balance strategic thinking and hands-on execution
- Positive personality with a strong desire for personal growth and drive to learn more about digital and IT-related topics (no previous experience required)
- Strong skills in MS Office (Excel, Word, PowerPoint)
- Ability to communicate effectively in English; German language skills are a plus

Benefits

- Competitive compensation and benefits
- Take on genuine ownership from day one
- Immerse yourself with new technologies and learn how to build an early-stage start-up from the ground up
- Surround yourself with an ambitious and international team from firms such as BCG, Bain, Celonis; and 5+ countries
- Regular team events (think virtual cocktail mixing), an office dog and a fun atmosphere
- Work remotely or come to our beautiful central office at Sendlinger Tor

// Our Vision

At Casana, we believe that every company from start-up to enterprise should have access to world-class digital product development.

We offer on-demand IT specialists and managed teams of accomplished product builders from around the world with a finely tuned mix of soft and hard skills to address our clients' specific needs.

Unlike other platforms that merely mediate between talents and customers, we are deeply involved in vetting, matching, and building a lasting relationship with our talents.

Working with freelancers, expert partner agencies and in-house talent, our dynamic staffing approach allows us to provide the best candidates for every task – within hours and without compromise.

// About Casana

We are a small, but rapidly growing team of tech enthusiasts with VC backing and big ambitions to bring the alternative workforce to company near you. Our core team is in the heart of Munich while our network of product builders is spread across the world from Buenos Aires to St. Petersburg. Our customers include a mix of traditional SMB as well as some of Germany's fastest growing startups offering green energy, healthy food products and sport equipment.

Please reach out to us anytime if you have any open questions!
