

Let's change the music industry for the better.

Orbit Audio is developing an all in one quality of life solution for music producers.

Aimed at all levels of skill and professionalism, we aim to simplify workflow, flatten the learning curve and lower the entry barrier to electronic music production, while enhancing connectivity between producers, ease tool selection and acquisition and maximizing the traction individual talents can gain.

We are actively looking for new talent to join our team!

If you are a software engineer willing to take on the beasts of (Web Development, Software Development), a sales or marketing genius, or just bursting with excitement to create something truly astounding, feel

free to contact us at:

company@orbit-audio.com

Contact Person: Raphael Weber

We would like to apply for the Exist grant and can still assign a potential position in the application.
