STRASCHEG CENTER FOR ENTREPRENEURSHIP

Strascheg Center for Entrepreneurship (SCE)

As the Entrepreneurship Center of the Munich University of Applied Sciences, the SCE promotes innovation and entrepreneurship through interactive educational programs, start-up support and networking activities. The aim is to motivate and empower people to think and act entrepreneurially, thereby contributing to a viable future.

In our numerous educational formats and diverse entrepreneurship events, we focus on practice-related, team-oriented and interdisciplinary project work, bringing entrepreneurial students, founders as well as intrapreneurs together with our inspiring network of academics and international experts, successful entrepreneurs, cross-industry business partners and investors.

We stand for a vibrant innovative culture and support start-ups with our funding and acceleration programs. In addition to qualified consulting, we offer our start-ups, students and partners innovative and creative working spaces and a physical incubator. In addition, we develop innovation workshops and entrepreneurship trainings for companies and executives in order to jointly develop solutions for the future of the economy.

We are constantly further developing our educational approaches and our understanding of entrepreneurship. To this end, we are active in the regional, national and international institutions that are helping to shape a European understanding of entrepreneurship.

We combine the best of many worlds: as an academic institute of a large German university, as an innovation laboratory and research institution, as a think tank, start-up incubator and as part of a cross-society learning community.

www.sce.de/en

The most important thing is to develop an entrepreneurial mindset. We motivate people to think like entrepreneurs and to shoulder responsibility. We teach them to deal with uncertainty as well as leadership qualities and the ability to work in a team. We encourage people to look beyond the horizon of their disciplines and develop their own visions.

We want to equip them to become active, to build and to use their own resources and to translate their ideas and projects into actions as entrepreneurs or intrapreneurs. Our goal is to establish the founding of a company as a viable option for one's own life, as well as to act as a successful intrapreneur within a company.

Think

the Future

Create

Responsible entrepreneurs shape a viable future. Entrepreneurship is a meaninful and responsible tool that can be both positive and protifable for the individual as well as for society. We support the pursuit of professional goals, as entrepreneurs or employees, and the shaping of social change.

Shaping the future together.

Thanks to our partners:

Many thanks to our main benefactors.

We thank Falk F. and Renate Strascheg and our Munich University of Applied Sciences for 15 years of great support and collaboration!

Prof. Dr. h.c. Falk Strascheg
Founder of the SCE

President Prof. Dr. Martin Leitner
Munich University of Applied Sciences

The SCE was founded in 2002 by the Prof. Falk F. Strascheg Foundation at the Munich University of Applied Sciences. Prof. Falk F. Strascheg is one of the most successful venture capitalists in Germany and Europe and is a founding partner of the venture capital company EXTOREL Private Equity Advisers. Prof. Falk F. Strascheg has been many things in his life. To limit it to his career, he's been an engineer, founder, entrepreneur, venture capitalist, supervisory board member, industry association head and, last but not least, donor and patron. His wife Renate Strascheg also has very close ties to the SCE. Since 2014, the Renate and Falk Strascheg Foundation has been sponsoring the Strascheg Award for innovations at the Munich University of Applied Sciences.

With 18,000 students in more than 90 undergraduate and graduate courses of study in 15 faculties, the Munich University of Applied Sciences is one of the largest universities of applied sciences in Germany. It offers excellent application-oriented teaching and research, a distinct culture of innovation and open academic coexistence. This culture enables cross-disciplinary education and personal development. In addition to sound knowledge and practical experience, MUAS alumni are characterised by international experience, intercultural competence and their viable and entrepreneurial thinking and acting. With these interdisciplinary qualifications, they are well prepared to engage in work and society with vision, creativity and a sense of responsibility.

SURVEY OF THE YEAR

Impact for Future

Jan

Inter-university consortium, including HM, SCE & SEA, receives millions in funding for holistic concept for impact-oriented entrepreneurship education. It will initially be implemented in the Munich metropolitan region and later throughout Bavaria. Students of all disciplines can undergo ECTS-eligible training and teachers can also get acquainted with impact orientation, social and sustainable entrepreneurship. Start-ups are supported in the impact-oriented start-up advisory service. More →

Porsche takes over FAZUA

Feb

Founded in 2013 at the SCE, FAZUA has become a pioneer of bicycle electromobility. The light and compact FAZUA drives and technologies are installed in bikes from over 40 brands. The purchase of an initial 20 percent stake by Porsche in February was the next big step in the company's history. In the summer, Porsche also took over the remaining 80% of the shares. More →
