

Internship/Working Student in App Development (m/w/d)

We are looking for you!

We are URGROW – an innovative Startup and we are making the future more sustainable!

In order to make this happen, we are looking forward to you as our new team member!

Job Description

Help to make the world a better place! We are a high-tech SME in the field of urban gardening and are looking for several student employees to develop cloud-based database systems. The interns will actively contribute to meaningful projects and work closely with a mentor and with senior leadership. Since we offer work from home, stable internet access and your own Linux PC are essential.

Responsibilities

1. Development and maintenance of native apps (focus on the front-end, cloud based)
2. Cooperating closely with our cloud teams

Requirements

1. Familiar with IOS and Android native app development
2. Experience in React Native
3. Experience in Javascript (NodeJS), html, CSS
4. Ability to work well in teams

Beneficial Skills

1. Knowledge service mesh concepts, GraphQL and Apollo
2. Knowledge in PWA
3. Knowledge in Microservices

Benefits

1. Gain hands-on experience in a development position
2. Training experiences with knowledgeable professionals
3. Work from anywhere
4. Flexible schedule
5. Compensation available

If you are interested to grow yourself with some really experienced specialists, come and join us. We will be happy to meet you!
