

# Looking to expand our team

■ Eko-Logical is inventing an innovative manufacturing process of wooden straw production to serve as an alternative for plastic straws that are banned by European Union regulation.

■ Do you want to be a part of fast growing startup? Do you want to contribute to global impact driven team? We have created an innovative technology and are currently in patent registration process. After we get our product and production method patented we are ready to start a factory with goal to employ 500 people. We already have investors and business partners world wide.

■ We are looking for new teammates that will help us establish our business presence in Munich. If you are up for a rewarding challenge, we would like to hear from you!

## **Your Tasks:**

Take ownership of daily team tasks and startup obligations. You will be assigned tasks that best fit your profile.

Own your part of the project and take full responsibility.

Re-using and improving our established frameworks and platforms to achieve our road map.

Collaboration and communication with our mentors, coaches and other team members.

Close teamwork with all other members in the project.

Taking your own initiative for continuous quality improvements.

## **Your Profile:**

At least 1 business venture experience (startup, private business, investments, etc)

Passionate about building innovative solutions

Excellent German and English

Experience with at least one of the following is a big bonus: business representative for German market, chemical engineer, wood engineer, marketing specialist, human resources, project management, market research.

Must know: Microsoft Office, G suite

Good to know: Any project management tool (ClickUp, Jira, Monday.com, etc)

Description: Responsible for planning, implementing, analyzing, and reporting on information gathered from the market with the intention of understanding the company's positioning and perception within market.

## **Responsibilities:**

Work with the marketing department and integrate marketing functions to generate sales.

Ensuring customer satisfaction through sales delivery.

Development of growth plans to increase sales and revenue generation.

Identifying new sales markets and pipelines.

You are analytical, structured and logical thinker with attention to detail.

You have good English and/or German language skills.

Excellent communication skills "Getting-Things-Done" mentality

High organizational skills and independent way of working

Proactive work attitude and analytical understanding

Compliance - following internal and external guidelines for our technical team
