

Hello everyone,

Are you interested in building a company and want to work on an innovative idea? Then here is the opportunity for you.

My name is Kaustubh Vyas and I am M.Eng (Mechatronics) student at TH Rosenheim. Currently, I am working on an innovative business idea in the field of Food Industry. I have completed the business model and now looking up for team members to proceed further.

Looking for ambitious team members who want to build something on their own.

1. Engineer:

- Bachelor/Master's in computer science, Information Technology, Data Science
- Know: App development, Database Management, Web Development
- Prior work experience or project in Database Management, App Development

2. Business Analyst:

- Bachelor/Master's in the Business Administration, Economics
- Know: Accounting, Costing, Financial Modelling, Budgeting and Forecasting
- Good communication/interpersonal skills
- Prior work experience or project will be helpful.

Interested??
